

Accessing NHS OpenAthens journals in PubMed

Overview

Now that resources available through OpenAthens at St George's Trust are discoverable in PubMed, accessing the resources you need is even easier. In order to display these links, a few quick steps are necessary by way of set up. This guide will take you through those steps.

Enabling full-text links

In order to display links to resources that are available through OpenAthens at St George's, it is necessary to have a 'My NCBI' account, and to be logged in to it. If you do not already have an account, one can be created at this page: <https://www.ncbi.nlm.nih.gov/account/register/>.

My NCBI includes a filters feature that groups search results, including an option which enables the display of resources available through a particular library. To set up the display of OpenAthens resources as a filter in search results:

1. Login to [My NCBI](#).
2. Under 'Filters', ensure that PubMed is selected from the drop-down menu, and click on 'Manage Filters':

The screenshot shows the My NCBI account page. The 'Filters' section is highlighted with a red circle around the 'PubMed' dropdown menu and another red circle around the 'Manage Filters' button. The 'Filters' section also includes a message: 'You do not have any active filters for this database. Add filters for the selected database.'

Collection Name	Items	Settings/Sharing	Type
Favorites	edit 0	Private	Standard
My Bibliography	edit 0	Private	Standard
Other Citations	edit 0	Private	Standard

3. Select LinkOut from the available filter categories, and search for St George's:

Browse/Search for PubMed Filters

Select category:

Popular LinkOut Properties Links

Search with terms (optional):

st george's

Active	Filter	Link Icon	Name	Description
<input type="checkbox"/>			Chemical Information	
<input type="checkbox"/>			Libraries	
<input checked="" type="checkbox"/>			Literature	
<input type="checkbox"/>			Medical Resources	
<input type="checkbox"/>			Miscellaneous	
<input type="checkbox"/>			Molecular Biology Databases	
<input type="checkbox"/>			Research Materials	

4. Next to the entry for St George's University Hospitals NHS Foundation Trust, check the boxes under the Filter and Link Icon columns:

Browse/Search for PubMed Filters

Select category:

Popular LinkOut Properties Links

Search with terms (optional):

Active	Filter	Link Icon	Name	Description
<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	St George's University Hospitals NHS Foundation Trust, St George's Library, United Kingdom	
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	St. George's University Founders Library, Grenada (website)	

5. As shown below, St George's Trust OpenAthens will be displayed as a filter next to search results when you are signed in to My NCBI. Search results can be limited to only those available through this means, by clicking on the filter:

Filter your results:

All (20199)

[St George's Trust OpenAthens \(8332\)](#)

[Manage Filters](#)

Accessing full-text results

After the display of links has been enabled, as above, the icon below will appear on the page showing the abstract of a paper:

Clicking on the icon will present a link which will take you through to an OpenAthens login page, and then through to the full-text.

Further help and support

If you require any further assistance contact a member of the NHS Liaison team:
