Introduction /

Below is a list of accepted good starting points for finding quality information on the internet for patients and their carers. “**For Healthcare Professionals**” lists resources that you can find and print off information for patients. The “**For Patients**” section lists some useful sites to recommend to patients looking for information.

For Healthcare Professionals /

The **Information Prescriptions Service** is a quick and easy way to provide information about long-term conditions and local services.

Information prescriptions bring together information from NHS Choices and other partners to make it easier for you to find the information that your patients need.

You or your patient can select the condition, the type of information needed and create an information pack tailored to your patient's needs.
